THE COSTARICAN NATIONAL VIDEOGAME DEVELOPMENT SHOWCASE WELCOMES YOU!

Expovit is the Costa Rican National Videogame Development Exposition. The first Expo was held back in 2013 and since then it has grown into one of the main spaces for local developers to showcase, meet and share with each other.

Our main goal has always been to strengthen the costarican video game development industry by opening spaces to showcase, do networking, and generate business opportunities for local companies and our international attendees.

This year, through the use of digital platforms, we're holding the first ever international Expovit, extending our grasp to the region, creating an unique space for developers, publishers and investors to gather in the heart of Central America.

Expovit has been declared an "Essential Costa Rica" event, which is our country's brand of excellence. Join us and find out why!

FIND OUT MORE ABOUT THE EVENT'S CONTENT AND OUR SPONSORS AT:
